LANGUAGES

- English, Full Professional Proficiency
- Marathi, Professional Working Proficiency
- Hindi, Full Professional Proficiency

PROJECTS

• Standalone Stream – OTT Platform

Tech Stack: React.js, Node.js, Laravel, Express.js, MongoDB, PayPal, Stripe, PayU, HTML, CSS, JavaScript

- Built a full-stack OTT platform for renting and purchasing national award-winning short films
- Developed the front end using React.js and Laravel, with backend APIs in Node.js and Express.js
- Integrated MongoDB for managing users, payments, and film metadata
- Enabled secure online payments via PayPal, Stripe, and PayU for film rentals and purchases

• AI SaaS – Text-to-Image Generator App

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST API, JWT, Tailwind CSS, ClipDrop API, Payment Gateway

- Built a full-stack AI SaaS application for text-to-image generation using ClipDrop API
- Developed user authentication with JWT and secure session handling; stored user data in MongoDB
- Implemented a credit-based system for image generation with online payment gateway integration

• Chat Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.IO, Vercel

- Developed a real-time chat application using the MERN stack with WebSocket functionality powered by Socket.IO
- Implemented bi-directional communication between users, enabling instant messaging without page reloads
- Designed a user-friendly interface in React.js and managed chat session data using MongoDB
- Deployed the full-stack app on Vercel for public access and real-time testing
